

## Electronic Communication

To help with our lines of communication between school and home, we have decided to expand our horizons and jump into the 21st century! It seems we are continually having to send various notes home, yet they don't always reach their intended destination! We would find it convenient to be able to send all school notes home via e-mail. We realize that not everyone has this available, so we will still send notes home, but would like to reach as many families as possible electronically. Your e-mail address will remain secure (it will be hidden in our communications). Please indicate if this is home or office (unless you'd like it sent to both).

We are hopeful that this will improve our communication ability with you. Thanks!

e-mail address

I prefer electronic communication only"

It is not necessary to send paper notes home.

I would like notes sent home in both forms.

I do not have e-mail capabilities and require that all notes be sent home with my child.
