The preschool children made a spaceship out of a large box during part of the *Reduce, Reuse, Recycle* Study Unit!

Preschool Happenings

Last week the preschool children continued with the *Reduce, Reuse, Recycle* Study Unit. They made all kinds of creations out of our collection of junk. They also made a collage out of paper scraps and old photos that were discarded. They made a tin can into a robot planter. Who knew that things that usually end up in the trash could be turned into so many wonderful creations! We read lots of fun books, one was about Sam the dog who had lots of great recycling tips. Another one was called, *I Stink!*, it was about a garbage truck who collected ABC trash. I think this was the favorite with the children.

If you have not turned in your registration for next year please do so as soon as possible. We are planning for next year and need to have an idea what kinds of supplies we need to order etc. Also, please spread the word we are now able to offer some free preschool options next year!

We will have an end of the year party on Thursday, May 24. If the weather is nice we will have a picnic outside. There will be a sign up sheet out if you would like to bring something to the party.

Thank you all for bringing snack in all year! We should have enough snack left for the rest of the month.
