

5th Grade Happenings

October 2, 2017

Hartley Packets

Hartley packets were due today (October 2nd). Please remember that all medications, including over the counter medications, topical creams, ointments, etc. must be signed off by a doctor. If you choose not to fill out the medication form, we will not be allowed to give your child any type of medication for any headaches, stomachaches, etc. they may get.

Accordion Folders

I encourage you to look at the assignments, tests, and notes in your child's accordion folder. However, unless it is notes that need to go home, please don't remove any assignments or test. At the end of the quarter I will tell students which papers they can remove from their folder. I collect their tests at the end of quarter. Please look at their tests, but return them to the folder.

Band

The students took a listening test for band today. This test is given to see which instrument would be best suited for your child. Your child should decide on 3 instruments they would like to play. In a week or two they will meet with Mrs. Kowalczyk to discuss if they want to be in band and what instrument would be best for them. They may not get their first choice, but chances are they will get one of their choices. Band is not mandatory, but it is encouraged they try it. More information will be coming home in the near future.

Grades: Power School

Please remember to be checking your child's grades. Use this link to log in. <https://dol.powerschool.com/public/>

Science Test

There will be a science test on Thursday, October 5th. I will hand out a study guide on Monday for the class to work on.

Mass Change

We were scheduled to do the October 5th Mass. However, there is no Mass that day. We will now do the October 12th Mass.

UM vs MSU Food Drive

This week, October 2nd through October 6th, we will be collecting food for the annual UM/MSU food drive. The totals and the winning team will be announced Friday afternoon. I encourage students to either earn the food they are bringing in or to spend a couple dollars of their own money to buy food. It is not their own service if they just grab a few canned goods out of the pantry/cupboard. It is more meaningful if the food comes from them.
