

# 5th Grade Happenings May 13, 2019

## Field Trip Dates

May 23: Soaring Eagle Water Park (Safety Patrol Members)

June 6: Air Zoo (End of the year class field trip)

\*Permission slips went home for the Safety Patrol field trip. They are due back by this Friday.

## Think Energy Surveys: \$100 For The Class!

Yay! All surveys have been turned in. I mailed them in, and we should be getting \$100 for our class to use. I will be putting the money towards the class field trip. With the money going towards the field trip, I am guessing the cost per person will be no more than \$5, maybe less than that.

## Diocesan Theology Test

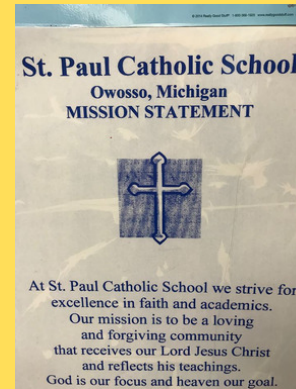

### Results

Students were given their score sheets telling how they scored overall and in each of the 6 sections of the test. I do not send the actual tests home. Overall the class did well on the test. Two students qualified for a diocesan certificate. (You can get no more than 1 wrong to qualify). Two more students only got 2 wrong, and several were in the "B" range. This test has 58 questions and is worth 62 points.

The results of the test do not affect their theology grade.

## Half Day Date Change

The half day that was originally scheduled for May 17th has been moved to May 24th. May 17th will now be a full day.

Mother's Day Brunch
